Bournas Medicals has been operating since 1988 in the field of medical disposable products. In 2006 started producing hygiene paper products for medical, dental and beauty market.

Company's product portfolio includes examination rolls & tissue paper products, dental rolls & bibs, sanitary & absorbent products, examination gloves and also a great range of medical disposable products.

We are cooperating exclusively with some of the biggest production factories all over the world so we are able to provide a great high quality product range. Also, we are continuously invested in the production field enriching our production unit with all the contemporary and necessary resources for producing, packaging and disposal of goods by covering directly the ongoing needs of our customers.

Since the Company's establishment and until today our first goal and vision is the contribution to a more integrated cover of the health field needs with high quality disposable products and competitive prices as the absolute satisfaction of our customers.

With special emphasis and attention to detail we look after the quality of our products so that we can meet the strictest specifications and controls given by European Certification (CE). Also, our company is certified with ISO 9001:2008 for production, trading and distribution of our products.

Our Company holds high market share in Greece by covering the entire range of health products with distributors all around the country. Also, from 2007 we are exporting our products worldwide by having presence in more than 25 countries like France, Belgium, Germany, Australia, Cyprus etc.

In Bournas Medicals our commitment to our customers is absolute. We aim to give them full satisfaction by offering the best possible quality products in the most competitive prices.
